

Practical No.12

Aim:- Sharing, Publishing, and Presenting Data Visualizations.

Steps:-

A] Export dashboards as PDF/Image

Step 1:- Connect to netflix_titles.csv (use Text file connection).

2. Drag type to Rows.

3. Drag netflix_titles.csv (Count) (or number of records) to Columns.

4. Drag type to Color (Marks card)

Result: A horizontal bar chart showing Movies vs. TV Shows.

Step 2:- Create a worksheet named: Growth by Release Year. Drag release_year to Columns (ensure it is Continuous or an unbroken timeline). Drag netflix_titles.csv (Count) to Rows. Drag type to Color

Filter: Drag release_year to Filters select Range of values set from 2000 to 2021 (removes sparse historical outliers). Result: A dual-line trend chart showing content volume over time

- Step 3:- 1. Create a worksheet named: Growth by Release Year.
2. Drag rating to Columns.
3. Drag netflix_titles.csv (Count) to Rows.

Sort descending by count (Click). Filter out Null ratings if any appear.

Filter out Null ratings if any appear.

Step 4:- 1. Click the New Dashboard tab and rename it: Netflix Executive Overview.

2. In the Dashboard pane on the left, under Size, select the dropdown: o Choose Fixed Size --> A4 Landscape (1169 x 827 px) or Letter Landscape (1100 x 850 px). (Fixed size prevents layout shifts during PDF export).

3. Drag a Horizontal or Vertical Container onto the canvas.

4. Add a Text object at the top: Netflix Global Content Catalog Analysis(20pt Bold).

5. Drag your sheets into the canvas:
Place Content Type Split on the top left.
Place Top 10 Ratings on the top right.
Place Growth by Release Year across the bottom.

Navigate to the top application menu bar: o Select Dashboard --> Export Image... (or Worksheet --> Export --> Image...).
Choose file location and name it: Netflix_Executive_Overview.png. o
Save as type: PNG Image (*.png) or Enhanced Metafile (*.emf) for vector scaling in PowerPoint.

In the top menu, go to File --> Page Setup...:

- o Page Type: Select A4 (or Letter).**

- o Orientation: Select Landscape.**

- o Scaling: Select Fit to at most 1 page wide by 1 page high (ensures no cutoff).**

- o Click OK.**

Go to File --> Print to PDF...:

- o Range: Select This dashboard (or Entire workbook to create a multi-page PDF report).**

- o Paper Size: Set to Unspecified (inherits Page Setup) or A4.**

- o Orientation: Landscape.**

Click OK, choose the destination folder, and name the file Netflix_Catalog_Report.pdf.

B: Use Presentation Mode in Tableau

Step 1. Open your Netflix Executive Overview dashboard in Tableau Desktop.

2. Enter Presentation Mode using any of these methods:

- o **Keyboard Shortcut:** Press F7 (Windows) or Cmd + Enter (Mac).

- o **Toolbar Icon:** Click the Presentation Mode icon (a small projection screen icon) in the top application toolbar.

- o **Menu Path:** Go to the top menu and select Window --> Presentation Mode.

Sheet Navigation: Use the left/right arrows on the toolbar (or the Page Up / Page Down keys) to cycle through all worksheets, dashboards, and stories in your workbook.

Live Interactive Filtering: Click on any bar or line mark (e.g., clicking Movies in the split chart) to demonstrate real-time cross-filtering.

Interactive Tooltips: Hover over data points to present granular numbers on demand without cluttering the main slide.

Reset / Revert: Click the Revert arrow on the presentation toolbar to reset all filters back to their initial state.

1. Hover Exploration:

o Move your mouse over individual data marks (e.g., specific bars in Content Type Split or peak data points in Growth by Release Year).

2. Interactive Filtering:

o If quick filters or legends are placed on the dashboard, click to filter or highlight categories live.

3. Multi-Sheet Navigation:

o Move your mouse to the bottom-left corner to reveal the subtle navigation toolbar.

o Use the Next Sheet () and Previous Sheet () arrows (or the Page Up / Page Down keys) to cycle between individual worksheets and dashboards seamlessly.

o Confirm that tooltips render cleanly with exact counts and dates.

C: Publish Dashboards to Tableau Public

Step 1:-o Go to the Data Source tab in the bottom-left corner. o In the top-right corner, select the Extract radio button.

15-09-2026

- Step 2. In the Data Pane, click the drop-down menu icon (small down-arrow next to the search bar).**
- 2. Select Hide All Unused Fields.**
- o Outcome: Columns not used in your visualizations or calculations (e.g., full text descriptions or raw cast lists, if unused)**

- Step 3:- 1. Click on the Netflix Executive Overview tab at the bottom so it is active.**
- 2. In the left-hand Dashboard panel, ensure Size is set to Fixed Size (e.g., 1366 x 768 px or A4 Landscape).**

**Step 4:- Go to the top menu bar and click File --> select Export
Packaged Workbook... (or File --> Save As...).**

2. In the file save window:

o File name: Netflix_Global_Content_Catalog.twbx

o Save as type: Select Tableau Packaged Workbook (*.twbx)

3. Click Save.

Step 5:- 1. In your operating system file explorer (Windows Explorer), locate Netflix_Global_Content_Catalog.twbx.

2. Notice the file icon: a standard Tableau workbook icon with a small orange package emblem.

3. (Technical Verification) A .twbx file is internally a standard ZIP archive. If you rename the extension from .twbx to .zip and open it, you will find:

- o The .twb (XML schema and visualization code).
- o A Data folder containing the compressed .hyper extract.

Additional Step:- 1. Open your web browser and go to public.tableau.com. 2. Sign in to your free Tableau Public account (or click Sign Up to create one). 3. In the top navigation bar, click your Profile Avatar (top-right) --> select My Profile.

5. Drag and drop your saved Netflix_Global_Content_Catalog.twbx file into the upload area.

6. Once the upload finishes, your interactive dashboard is live on Tableau Public.

7. On the published web page:

Test Interactivity: Click on the Movie or TV Show bars to confirm web cross filtering works.

Retrieve Links: Click the Share button below the dashboard to copy:

o Direct URL: For resumes, LinkedIn, or portfolio submissions.

o LINK:

https://public.tableau.com/shared/YJYG6KN7P?:display_count=n&origin=viz_share_link

Embed Code: For embedding into HTML websites or blogs.

```

```

D: Share Dashboards via Tableau Server / Tableau Cloud

Step 1:- Right-click the Content Type Split tab --> select Hide Sheet.

Right-click Growth by Release Year --> select Hide Sheet.

Right-click Top 10 Ratings --> select Hide Sheet.

Step 2:-1. Go to the top application menu bar and click Window.

2. Look at the Show Sheet Tabs toggle:

o If you have only one executive dashboard, you can leave it unchecked or keep it clean so the dashboard spans the entire interface.

3. Verify that the window controls are clean and unobstructed by unused toolbars.

- Step 3:-**
1. In Tableau Desktop, press Ctrl + S (or go to File → Save) to save your packaged workbook (Netflix_Global_Content_Catalog.twbx).
 2. Close your current Tableau Desktop window.
 3. Double-click the saved Netflix_Global_Content_Catalog.twbx file in your local file explorer to reopen it.
 4. Audit the File:
 - o Does it open directly to the Netflix Executive Overview?
 - o Are the underlying calculation/raw sheets hidden from view?
 - o Does it open instantly without asking for database passwords or CSV file paths?
 5. If yes to all, your deliverable is structured correctly for offline distribution.

E: Enable User Interaction on Shared Dashboards

Step 1:- 1. Create a new worksheet named: Tooltip Rating Breakdown.
2. Drag Rating onto the Rows shelf. 3. Drag netflix_titles.csv (Count) onto the Columns shelf. 4. Drag Rating onto the Color tile on the Marks card. 5. Sort the bars in descending order.

- Step 2:-**
1. Return to your Content Type Split worksheet.
 2. On the Marks card, click the Tooltip tile.
 3. In the Edit Tooltip dialog:
 - o Delete default text if desired, then click Insert in the top-right corner of the editor.
 - o Select Sheets --> Tooltip Rating Breakdown.
 - o Tableau inserts the code tag:
 4. Click OK.

Step 3:- 1. Open your Netflix Executive Overview dashboard. 2. From the top menu bar, select Dashboard --> Actions... (or press Ctrl + Shift + A).

In the Actions dialog, click Add Action --> select Filter....

4. Configure the Filter Action:

- o Name: Filter_by_Content_Type

- o Source Sheets: Check Content Type Split. (Sheet 1)

- o Run action on: Select Select (triggers on click).

- o Target Sheets: Check Growth by Release Year and Top 10 Ratings.

- o Clearing the selection will: Select Show all values.

- o Target Filters: Leave as All Fields.

- o NOTE: Name of Sheets can be different.

The screenshot displays the Tableau interface with a dashboard titled "Netflix Global". The dashboard includes a bar chart showing "Type" (Movie, TV Show) and a line chart showing "Growth by Release Year". The "Add Filter Action" dialog box is open, showing the following configuration:

- Name:** Filter_by_Content_Type
- Source Sheets:** Netflix Executive Overview
- Run action on:** Select
- Target Sheets:** Netflix Executive Overview
- Clearing the selection will:** Show all values
- Filter:** All fields

The background dashboard shows a bar chart for "Type" (Movie, TV Show) and a line chart for "Growth by Release Year". The line chart shows the "Count of netflix_titles.csv" over time (2000, 2002, 2004).

Test the Filter: Click the Movie bar; the line chart instantly updates to show release year trends exclusively for movies. Click it again to clear the filter.

Step 4:- Go to Dashboard --> Actions... --> click Add Action --> select Go to URL....

2. Configure the URL Action:

- o Name: Search Google for
- o Source Sheets: Check Content Type Split.
- o Run action on: Select Menu (adds a clickable link inside the tooltip).
- o URL: Enter: <https://www.google.com/search?q=Netflix++Catalog>
- o (Click the small arrow next to URL to insert the dimension dynamically).

3. Click OK, then click OK to close.

F: Manage Permissions and Access Control

Step 1:- 1. In the Data Pane on the left, click the small dropdown arrow next to the search bar (or right-click an empty space) --> select Create Parameter....

2. Configure the parameter properties:

- o Name: **Simulated_User_Role**

- o Data type: **String**

- o Allowable values: **Choose List**

- o Add four simulated corporate identities: **1. Executive_Admin 2. US_Regional_Lead 3. International_Lead 4. Restricted_Guest**

- o Current value: **Set to Executive_Admin**

Step 2:- 1. Right-click an empty space in the Data Pane --> select Create Calculated Field....

2. Configure the field:

o Field Name: RLS_Access_Control

o Tableau Formula:

```
CASE [Simulated_User_Role] WHEN "Executive_Admin" THEN TRUE  
WHEN "US_Regional_Lead" THEN IF [Country] = "United States"  
THEN TRUE ELSE FALSE END WHEN "International_Lead" THEN IF  
[Country] != "United States" AND NOT ISNULL([Country]) THEN TRUE  
ELSE FALSE END ELSE FALSE END
```

3. Click OK.

Step 3:- 1. Go to the top application menu bar --> select Data --> hover over netflix_titles --> select Edit Data Source Filters....

2. In the Data Source Filters dialog, click Add.....3. Select RLS_Access_Control from the field list --> click OK.

4. In the filter dialog, check the box for True --> click OK, then click OK again.

G: Evaluate and Optimize Sharing Strategies

Step 1:- 1. Go to the Data Pane on the left.

2. Click the small drop-down arrow next to the search bar --> select Hide All Unused Fields.

3. Right-click your data source (netflix_titles) --> select Extract Data... --> click Extract to regenerate a trimmed extract.

4. We have already done this step earlier.

Step 2:- Convert row-level string manipulations into boolean or integer flags where possible. Avoid nested IF-ELSE calculations on high-cardinality text fields inside the view; use native Grouping or Sets instead.

Step 3:- For files exported to slide decks or opened on varying monitors, set the dashboard size to Fixed Size (e.g., 1366 x 768 or 1920 x 1080) rather than Automatic.

Why: Fixed sizing forces Tableau to cache the render pass once, preventing re rendering calculations every time a recipient resizes their window.
